TSX-V: RRS

Increased Market Activity

VANCOUVER, B.C. – **Rogue Resources Inc. (TSX-V: RRS)** (“Rogue” or the “Company”) wishes to confirm that management is not aware of any corporate development of the Company or its operations that would cause the recent increase in market activity with respect to the trading of its common shares on the TSX Venture Exchange.

The Company continues to advance its Langmuir Nickel Project and Radio Hill Iron Ore Project located near Timmins, Ontario, and its Lac de la Grosse Femelle Silica Project located northeast of Quebec City, Quebec. All ongoing work and advances have been previously news released and can be found on SEDAR and the Company’s website.

ON BEHALF OF THE BOARD OF DIRECTORS

John de Jong, CEO & President
